Introduction

The OrgPublisher Microsoft Silverlight option provides interactive, animated cross browser/cross platform publishing.

Purpose

The purpose of this document is to provide system and user requirements. It also includes a comparison of Silverlight features to the features of all other publishing formats.

Audience

The intended audience for this document is current or prospective OrgPublisher customers and the OrgPublisher chart administrator with permissions to turn Windows features on or off.

Requirements

See the [System Requirements](#) web page to verify current server and client requirements as well as compare EChart thin client and server requirements.
