Universe Description

The universe of this file is all establishments of firms with payroll in business at any time during 2007 and classified in Retail Trade (Sector 44-45).

Data Items

This file contains data on:

- Number and total sales of establishments with the product line
- Product line sales
- Product line sales as a percent of total sales of establishments with the product line and of all establishments
- Sales of establishments reporting product line sales as a percent of total sales
- Percent of product line sales accounted for by kind of business

Geographic Coverage

The data are shown at the United States and State levels.

Industry Detail

The data are shown for 2-digit and selected 3- through 7-digit NAICS codes.

Other Variables Identifying Records

Each record includes a PSCODE code which represents a specific product line.

Release Schedule

The data in this file are scheduled for release in the fourth quarter of 2010.

Related Data Files

These data supersede preliminary data released in the Industry Series Product Lines file for Retail Trade (Sector 44-45) from the 2007 Economic Census.

Data Limitations

Only industries that meet dissemination criteria are included. Also, see *Survey Methodology* for additional information on data limitations.

File Sequence

Data are presented by geography in ascending NAICS code sequence by product line.

Estimated File Size

Approx. 134 MB

Source: U.S. Census Bureau, 2007 Economic Census

Note: The data in this file are based on the 2007 Economic Census. To maintain confidentiality, the Census Bureau suppresses data to protect the identity of any business or individual. The census results in this file contain sampling and nonsampling error. Data users who create their own estimates using data from this file should cite the Census Bureau as the source of the original data only. For the full technical documentation, see [Survey Methodology](#) link in above headnote.
